

Connexus® Infrastructure Services, Powered by Beeks

More Powerful Together

Solution Sheet

Beeks
Financial Cloud

Two Industry Leaders Working Together

IPC expands the set of Connexus Infrastructure Services with industry leader Beeks' expertise and capabilities.

CIS is being enhanced with Beeks' low latency and on-demand solution offerings. By partnering with Beeks, IPC is bringing to market infrastructure solution services that are flexible and tailored to meet the market's needs.

Connexus Infrastructure Services, Powered by Beeks

Working together, IPC and Beeks enable financial market participants to combine IPC's unparalleled **Connexus Cloud community and global network reach** with Beeks' capabilities in **on-demand managed IaaS and custom cloud solutions**.

Connexus Infrastructure Services, Powered by Beeks is a private, secure Infrastructure as a Service which utilizes globally located data centers embedded in IPC's Connexus Cloud.

CIS offers **agility, flexibility and highly specialized configurations** while maintaining an exceptional level of security, assurance and efficiency.

CIS is designed for **speed, market access, connectivity and security**, all as a managed infrastructure.

IaaS for the Capital Markets

Connexus Infrastructure Services, Powered by Beeks offers an array of solutions that includes infrastructure management across servers, firewalls and storage options that combines with Connexus Cloud and IPC's diverse ecosystem.

Since both IPC and Beeks are **100% focused on the financial industry**, we are uniquely positioned to architect, deploy and manage these environments, offering **optimized performance and exceptional service**.

Connexus Infrastructure Services, Powered by Beeks – Solutions

Custom and standardized rapid deployment solutions include:

Managed Server

Options include Dedicated Managed Servers, shared virtual environments and hybrid solutions. Design flexibility empowers the customer by offering a selection of various processor, RAM, HDD, NIC and various operating systems.

Managed Security

Security solutions are available to meet or exceed industry best practices for security and redundancy. Solutions include managed firewalls with rule-set configuration, review and monitoring.

Managed Storage

Choices include a variety of highly available storage arrays to effectively accommodate business needs while offering protection for applications, data and operating systems. Solutions range from local disk arrays to high-performance SAN storage systems running on Fibre Channel drives.

Managed Smart Hands

Smart hands ensures remote support is readily available to immediately respond to your needs: 24 hours a day, 7 days a week, 365 days a year. Functions include installation, physical MACs (moves, adds and changes), power cycling and troubleshooting.

Connexus Colocation

Provides full and fractional rack space, power and connectivity into the IPC Connexus Cloud.

Connexus Infrastructure Services, Powered by Beeks – Availability

Connexus Infrastructure Services, Powered by Beeks is available in key data centers located in major financial market cities. Being embedded in the Connexus Cloud, IPC's **ready-made ecosystem**, enables access to over 6,700 capital markets participants in 750+ cities.

Connexus Infrastructure Services, Powered by Beeks – Benefits

- One contract, one agreement, one SLA
- Exclusively available to the capital markets
- Design options include private clouds ranging in size from very small to very large, scaling up or down on demand
- Solutions can be part of ultra low latency Arista trading communities
- Security solutions include a defense in depth (DiD) approach, tailored to the risk appetite of each customer
- Customized maintenance and update cycles managed by financial industry experts
- Global, multilanguage support

Support After the Sale

Financial firms need a partner they can trust and one who provides premium support. **Connexus Infrastructure Services, Powered by Beeks** is monitored, managed and supported by a team of highly skilled engineers around the globe providing world-class customer service – 24 hours a day, 7 days a week, 365 days a year.

IPC's Global Service Operations Centres (GSOCs) in New York, London and Singapore are exclusively focused on servicing the capital markets by monitoring the network at all hours of the day and night. The GSOC operates using a follow-the-sun support model, including a detailed handoff process from one Centre to another, ensuring proactive monitoring and management of the network continues.

About IPC

IPC is a technology and service leader that powers financial markets globally. We help clients anticipate change and solve problems, setting the standard with industry expertise, exceptional service and comprehensive technology. With customers first and always, we collaborate with each to understand their individual needs to help make them secure, productive and compliant within our connected community. Through service excellence, long-developed expertise and a focus on innovation and community, we provide agile and efficient ways for our customers to accelerate their ability to adapt to the ever-changing requirements for advanced data networks, compliance and collaboration with all counter-parties across the financial markets.
