

IQ/MAX[®] Omni

IPC

Solution sheet

Unified Communication Platform

IQ/MAX Omni runs on the same Unigy backroom platform as all of the components in our IQ/MAX suite of products. Omni can quickly be turned on via simple licensing and delivers the same powerful features with the same look and intuitive interface as IQ/MAX Touch and IQ/MAX including:

- PSTN, ARD, MRD support
- Hoot and ICM integration to all IPC endpoints
- Buddy list view for contacts
- Button sheet editor
- Up to 16 speaker channels
- Enhanced view of directories
- Local Microsoft Outlook integration
- Extensible applications area

Omni Technical Features

IQ/MAX Omni is a full-function soft trading platform flexibly deployed, managed and maintained from your centralized infrastructure and featuring:

- PC-based soft turret
- Native VOIP
- Compact UI with access to dial tone, ARD, MRD, ICM and speakers
- Full-featured directories
- Extensible application launch pad
- Button sheet view
- USB headset/handset

Today's trading demands mobility, immediacy and consistency. Increasingly, traders need to communicate and collaborate seamlessly at any time of the day or night, from anywhere in the world. The technology of IQ/MAX[®] Omni soft turret puts the same power, control and intuitive user interface provided by Unigy[®] – powered IQ/MAX Touch and IQ/MAX turrets to work virtually everywhere.

Crisis-proof Your Business

Provide an immediate and cost-effective business continuity solution. When an unpredictable situation (natural disaster, pandemic, labor strike, political conflict, travel ban) disrupts your business or prevents access to your front room, just switch over to Omni until the problem is resolved. So you, your business and your customers get peace of mind knowing you have reliable worldwide connectivity to protect client equity continuously.

Empower the Mobile Trader

Compatible with existing remote access/VPN solutions, IQ/MAX Omni lets traders take the full functionality of their own turrets with them wherever they go. From home, other offices or on the road, they have immediate access to markets and customers.

Extend the Productive Workday

Communicate with markets in other time zones. Increase contact and collaboration — and make more trades in a day.

Equip Satellite Offices Fast

Rapidly deploy powerful Unigy IQ/MAX functionality to smaller or remote offices — with full compliance. Maintain consistency and smooth workflow between office locations.

Explore New Markets

No need to make a major investment in hard turrets for a test office location. Find out if the region or market can support operations. Then easily scale as the business grows.

Simplify Administration

Omni integrates seamlessly with the rest of your communications infrastructure. Soft turrets run off the same Unigy backroom as the rest of your enterprise. All users on your Unigy platform — whether on hard or soft turrets — work with the same intuitive interface. The business still retains complete control of the Omni clients regardless of where they are deployed, as well as full oversight to maintain compliance requirements, such as voice recording needs.

IQ/MAX Omni

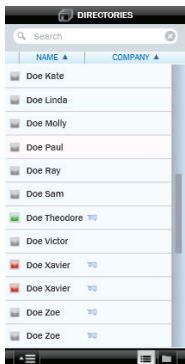

Around the globe. Around the clock. Your turret is now virtually there at your fingertips, so you can collaborate, analyze and — most importantly — communicate with your customers, support staff and counterparties at any time.

Access to Speakers and Intercom

Omni provides you support for up to 16 speaker channels and access to ARD, MRD, and intercom.

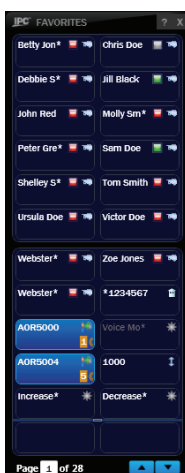

Global Power and Flexibility for Traders

IQ/MAX Omni maximizes your access to markets and customers by extending the full functionality of the industry-leading IQ/MAX Touch and IQ/MAX turrets to the desktop of any PC. Now, wherever you have a broadband Internet connection, your turret is there, too.

Omni Directories

- Provides new application for prioritized presentation and simplified management of user contacts
- Allows for personal and group directories with integration to Microsoft Outlook's local directory
- Introduces new insight via most frequently used contact view

Omni Button Sheet

- Easily review contacts based on call history, favorites, or most frequently used
- Omni button sheet displays "Presence" availability information of all Unigy contacts
- Fixed buttons can be prioritized by private lines or by contact

About IPC

IPC is a technology and service leader that powers financial markets globally. We help clients anticipate change and solve problems, setting the standard with industry expertise, exceptional service and comprehensive technology. With customers first and always, we collaborate with each to understand their individual needs to help make them secure, productive and compliant within our connected community. Through service excellence, long-developed expertise and a focus on innovation and community, we provide agile and efficient ways for our customers to accelerate their ability to adapt to the ever-changing requirements for advanced data networks, compliance and collaboration with all counter-parties across the financial markets.
