

# Connexus<sup>®</sup> Cloud Connect

Unlock the Power of Cloud Access to multiple global cloud platforms and empower seamless digital transformation across borders.

## Global Reach, Tailored Solutions

Connexus offers customized solutions that align with your specific needs, ensuring your **cloud strategy** is as distinctive as your business. With an expansive network of partnerships with leading cloud service providers, we open doors to the cloud through cutting-edge **Network-to-Network Interfaces (NNIs)**.

## Empowering Your Cloud Journey

Connexus Cloud Connect opens diverse routes to the same cloud platform through **multiple service providers**. Through our core NNIs, you can effortlessly leverage cloud exchange platforms or establish direct connections to cloud providers, ensuring your journey to the cloud is as **efficient and flexible** as your business demands.

### Global Access

Connexus grants you access to cloud platforms around the world: Deploy and manage your services wherever you need them.

### Strategic Partnerships

Our strategic collaborations with **renowned cloud service providers** set us apart, giving you an edge in your cloud endeavors.

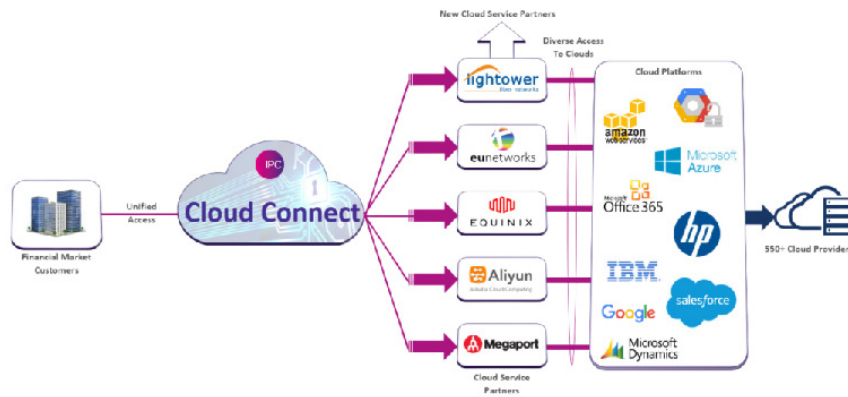

### Unrivaled Connectivity

Enjoy diverse networking options via cloud exchange platforms or establish direct connections for lightning-fast, **secure data transfers**.

### Smooth Transition

Seamless **digital transformation**: Connexus takes the complexity out of **cloud adoption**, allowing you to focus on what matters most—your business.

## Why Connexus Cloud Connect?

1. **Fast and Reliable Connectivity:** Offers faster, reliable and low latency connectivity when compared to use of standard internet connectivity to connect to the cloud
2. **Go Global:** Connect to applications, data or partners in the cloud from a variety of locations worldwide
3. **Flexible Bandwidth:** Scale up and down as per your bandwidth requirements, starting from 50Mb, up to 100G
4. **Multiple Topologies:** Supports a variety of topologies for connectivity between your infrastructure and cloud such as hybrid connectivity, multi-cloud connectivity or cloud to cloud connectivity, either as hosted or dedicated connections
5. **High Availability and Resiliency:** Leverage IPC's highly available and resilient core network backbone to establish seamless connectivity between your data centers, remote locations, branch offices, headquarter and cloud, suitable for mission-critical business globally.

## About IPC

A specialist technology and service leader powering global financial markets for over 50 years, IPC Systems is at the forefront of electronic trading connectivity and state-of-the-art cloud communications, setting the standard for exceptional service, innovation, and expertise.

IPC's customer-first approach is bolstered by an extensive and diverse financial ecosystem that spans all asset classes and connects market participants anywhere in the world for enhanced communication, collaboration, and compliance. Global services include electronic trading, trading communications, and infrastructure-as-a-service solutions.

IPC is ideally positioned to anticipate change and remain aligned with rapidly transforming markets, and to empower customers to adapt to change, now and in the future.
