

IPC Network Solutions

Global Market Connectivity Throughout the Trade Lifecycle

IPC's has the world's largest secure cloud infrastructure built specifically for the global financial industry, facilitating electronic trading connectivity and voice communications service access for a community of over 200,000+ users.

Connexus Cloud

Private cloud that brings fast, reliable data connectivity to all aspects of the trade lifecycle

Connexus Crypto

Supports complex trading strategies and provides ultra-low latency connectivity to global crypto-exchanges

Connexus Alpha

Transport solution for ultra-low latency connectivity to liquidity hubs, exchanges and public cloud

Connexus Infrastructure Services

Colocation that provides network infrastructure, including connectivity to the IPC network and physical security controls. A private, secure IaaS which utilizes globally located data centers

Connexus Extranet

Connectivity throughout the full trade lifecycle

Connexus Ethernet

A global service connecting financial market participants and engineered to ensure path resiliency and maximum efficiency

Connexus WAN

A MPLS-based wide area network service that delivers mission-critical enterprise connectivity for voice, video and data applications

Connexus Chrono

Turnkey clock synchronization and time stamping service engineered to deliver high precision, reliable, and traceable time feeds

Connexus® ALPHA

Innovative Cloud Edge Solution to Provide Ultra-Low Latency Connectivity

Connexus ALPHA is a high-performance optical and ethernet transport solution for ultra-low latency connectivity to liquidity hubs, exchanges and public cloud.

Features

- Fully-managed ultra-low latency connectivity service
- Premium service offering
- Rapid deployment of services using Software Defined Networking (SDN)
- Sophisticated network monitoring
- State-of-the-art portal
- Integrated Product Set allows faster time to market and diverse set of customer solutions
- Strategic Partnerships to provide Best of Breed solutions tuned to customer needs

- Raw and Normalized MD
- Entitlements
- Pre-Trade Risk
- Execution Management
- Colocation
- Bare Metal Storage
- Timing
- Exchange, Colocation, Cloud Access & Cloud Connectivity
- End-to-End Service Management Network Foundations

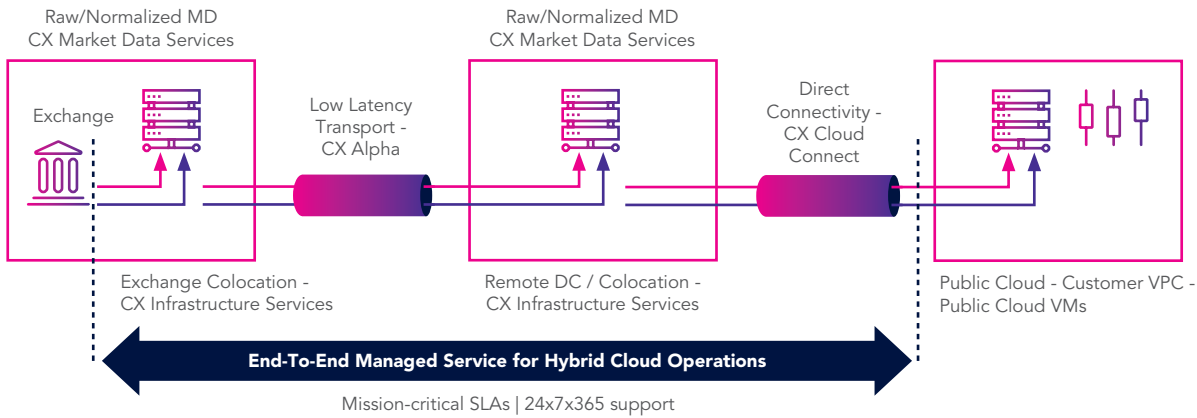

Connecting opportunities

Market Data Made Simple

Consume in IPC Co-Lo or use our High-Performance Distribution Services to Remote Venues | DCs | Cloud

- **Exchange Native:** Distribution of Exchange Native MD feeds over CX Alpha, Ethernet or Extranet
- **Low Latency Normalized MD:** Partner-enabled service using FPGA-accelerated book build for latency sensitive applications. Single API across multiple markets
- **Customizable MD:** Partner-enabled Normalized Exchange Market Data. Single API across multiple markets. Conflation and Customization available

Enabling Ultra Low Latency Trading

ABOUT IPC

IPC is a technology and service leader that powers financial markets globally. We help clients anticipate change and solve problems, setting the standard with industry expertise, exceptional service and comprehensive technology. With customers first and always, we collaborate with each to understand their individual needs to help make them secure, productive and compliant within our connected community. Through service excellence, long-developed expertise and a focus on innovation and community, we provide agile and efficient ways for our customers to accelerate their ability to adapt to the ever-changing requirements for advanced data networks, compliance and collaboration with all counter-parties across the financial markets.
